# Color Classification

## Classification Color

If utilizing classifications this feature allows a different color to represent each classification on the receive screen.

1.Go to "Admin"

2. Select "Classification Color" in the Advanced Menu

3. Choose the drop down, select a classification, and select "Add Color Mapping"

4. Select the color block to choose the color for the classification and select a color.

5. After selecting the color, select "Save Color Mappings"

6. If there is a need to delete a classification color select the check box and select "Save Color Mappings"

7. Once a recipient is chosen under that classification the receive bar will change color
